Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2014 - December 31, 2014

Filing Confirmation Number: 0006618179

Filing Deadline: February 18, 2015

FRN: 0004334538

Filing Date: 01/13/2015 05:22 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: OTZ Telecommunications, LLC

Brand Names: OTZ Telecommunications, LLC

PO Box:

Street Address: 346A Tundra Way

City: Kotzebue

State: AK

Zip Code: 99752

Contact Name: Doug Neal

Contact Phone: (907) 442-1000

Contact Fax:

Contact Email: dneal@otz.net

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency

band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations?
Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: http://www.otz.net/phones_cellular.html

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Hearing Aid Compatible wireless phones are marketed online at the OTZ website. HAC phone posters are prominently displayed in our cell-phone sales area. All customer service agents are trained to identify HAC devices that best meet our customers needs and budget. We provide a low price HAC phone similarly priced to the lowest priced non HAC phone. We also provide a free HAC phone to Lifeline and Link-up wireless subscribers if needed.

Methodology for Functionality Levels

Basic Phone. Basic Phones will have either no cameras or a VGA camera. These phones are capable of making and receiving calls, sending and receiving text messages. WAP browsing and picture messaging may also be available on some models.

Mid Level. Mid Level phones generally have higher resolution cameras and have MP3 music players. They will have Bluetooth capability. These phones will usually have a memory slot for storing pictures, video and music. Phones also have the ability to send and receive both text and picture messages. Most Mid-Level phones will have a WAP internet browser.

High End. High End devices will have 2 Megapixel or better cameras. They generally have stereo Bluetooth capabilities. Most feature an additional HTML internet browser and larger, high resolution displays. Some phones will have touch screens and or slide out QWERTY keyboards.

Smartphones. Smartphones have advanced operating systems like Apple iOS, Google Android and Microsoft Windows Mobile which allow for application additions. These devices support both voice and data communications and generally are WiFi capable and feature rich.

Report Remarks

You have reported the following handset model summary information.

Total number of handsets offered: 49

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	29	59%	1	2%	19	39%	49
